

CONFÉRENCE

Prof. Kunio Kawamura

Hiroshima Shudo University

«Origins of life»

Nowadays, the clarification of the mechanism of how living organisms emerged on the ancient Earth is regarded as an important goal of scientific research. Life-like systems have emerged on the Earth or Earth-like planets by a series of chemical reactions involving various molecules. The history of chemistry from the origins to the present diversified life forms is now being understood step by step.

Conférence tout public – en anglais
Entrée libre – dans la limite des places disponibles

Jeudi 16 février 2017 à 17h30
Maison Universitaire France-Japon
42a, Avenue de la Forêt Noire à Strasbourg
